January 25, 2010

Banner Tow, Parasail and Sight Seeing Authorization Holders Operating in South Carolina:

The South Carolina Flight Standards District Office will conduct the annual meeting for all previously certificated banner tow operators, parasail operators, and other interested parties on **Thursday, February 25, 2010, at 1:00 P.M.** This meeting will be held in the Federal Inspection Station Office (FIS) (Customs) located on the ground floor of the main terminal building at the Myrtle Beach International Airport and will last approximately two hours.

The meeting will concentrate on safety issues concerning banner tow operations, parasail activities, and sight seeing flights.

The United States Coast Guard has agreed to be present and we have requested that Air Traffic Control personnel from the Myrtle Beach International Airport, Grand Strand Airport, and the Charleston International Airport be present. Representatives from the local municipalities of Myrtle Beach, Surfside, North Myrtle Beach, Charleston and Hilton Head are invited and encouraged to attend.

If you are an aerial advertiser or a parasail operator wishing to be certificated for the 2010 season, or a new applicant, you **must** attend this meeting. Failure to attend could result in an extended delay in the application approval process. You are encouraged to have persons present who represent both flight operations and aircraft maintenance departments. Included are two copies of the FAA Form 7711-2, Application for Certificate of Waiver or Authorization, which you should complete **prior to the meeting**.

If you are a sight seeing flight operator, you must also attend this meeting. It is very important that you hear first hand our safety plans for your operations.

Please contact Inspector Todd Clamp at 803-451-2648 or Inspector Tony Finocchi at 803-451-2647 if you or your representative are unable to attend. We are looking forward to a productive, safety-oriented meeting.

Sincerely,

Marty L. Crouch
Manager, South Carolina FSDO 13
